## INDEX

1. INTRODUCTION	6
2. LAUNCH OF THE CALL FOR 3PP	6

## 1. INTRODUCTION

This document presents Milestone *MS13: Launch of Call for third-parties' projects* which was built on the foundation of Deliverable *D7.1 Documentation Package for the Call for proposal for 3PP* and published on the TETTRIs website ([tettris.eu](https://tettris.eu)), with a dedicated online system for the submission of proposals.

## 2. LAUNCH OF THE CALL FOR 3PP

The call was published and became fully operational on the 30<sup>th</sup> of June 2023 at 12pm on the TETTRIs Website. The light blue rectangle that appears at the bottom left of the home screen of the website (see Image 1 below), as portrayed in the image below, will guide the user directly to the documentation related to the call as well as the online system through which applications are to be submitted.

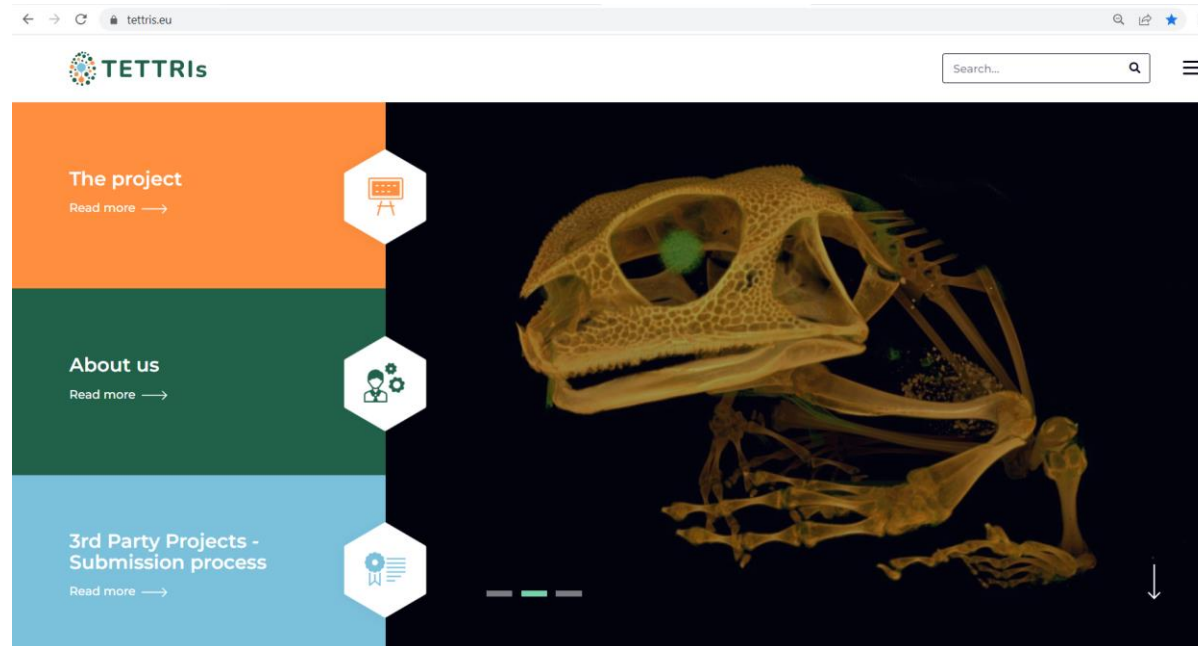

Image 1: Home screen of the TETTRIs Website

The dedicated section includes a video presentation to the Call for Proposal, brief information regarding the context of the Call, the scope and documentation (See Deliverable 7.1. *Documentation Package for the Call for proposal for 3PP*), a submission platform, and a contact point. Users may navigate this information by clicking on the relevant tabs as seen on *Image 2* below.

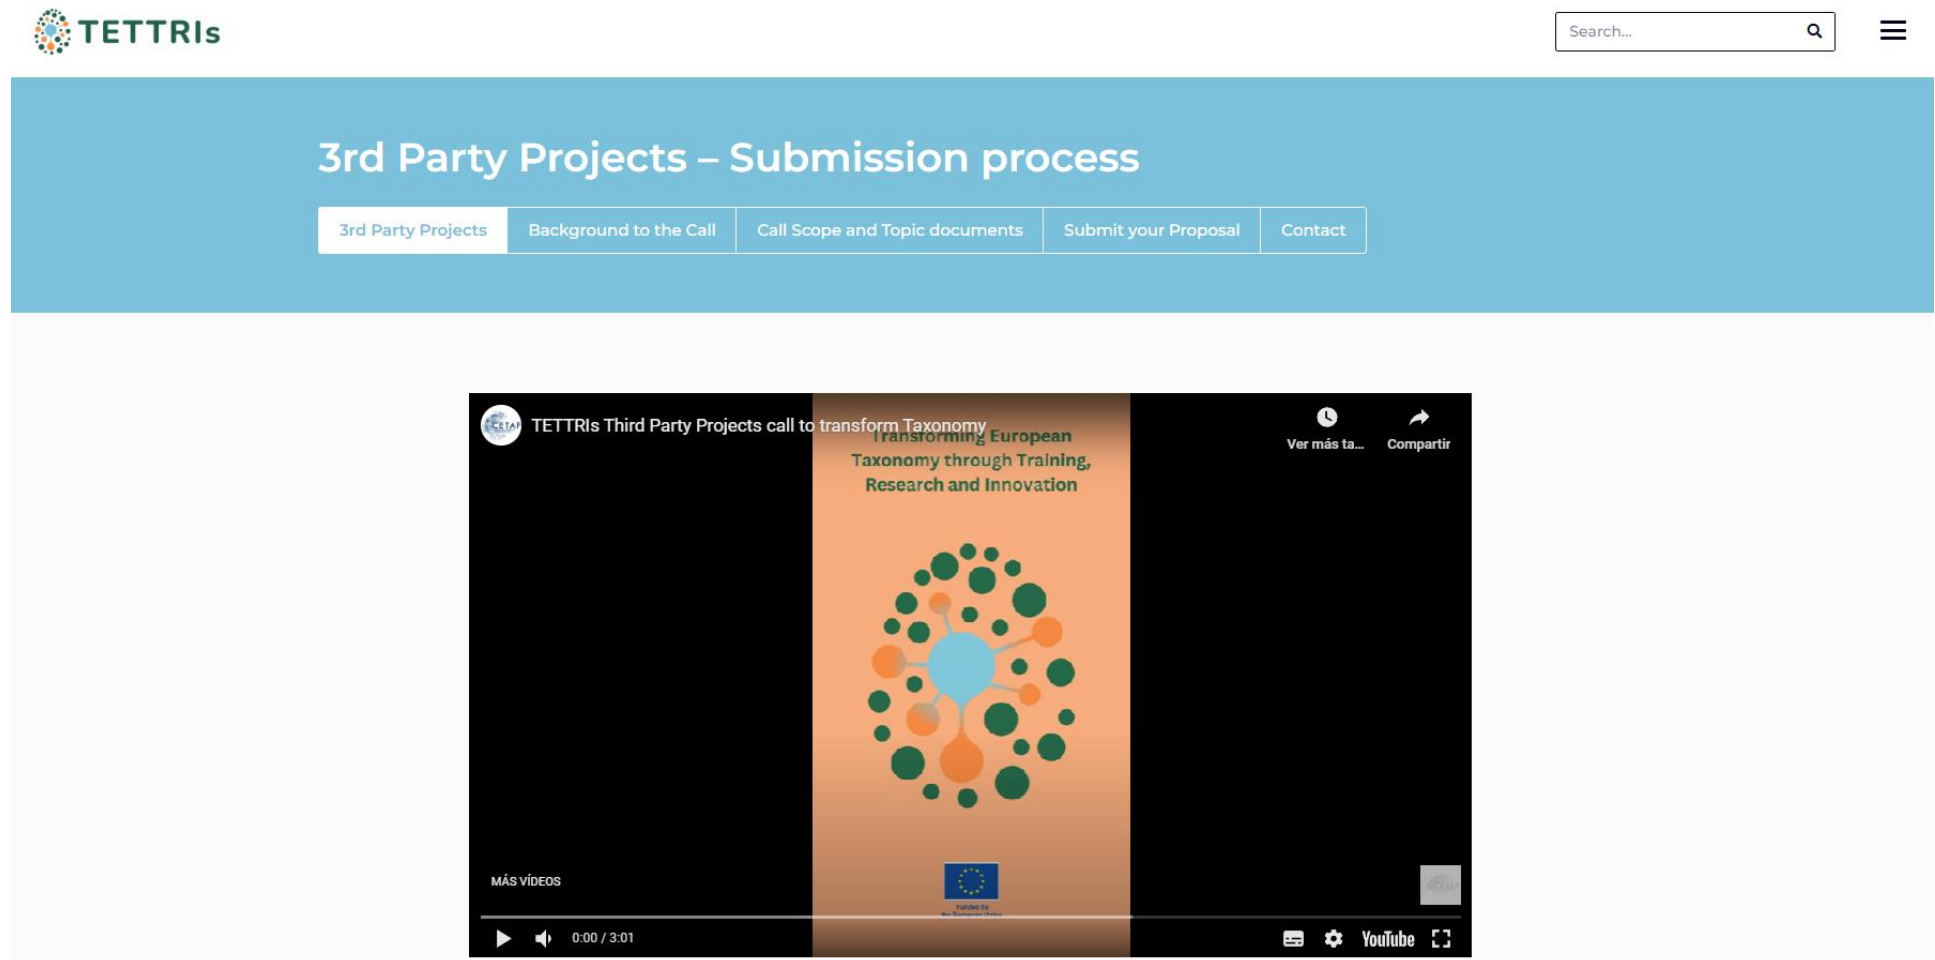

Image 2: Website section relative to the 3PP

The submission system has been designed to allow access online to applicants that merely need to fill in, directly on the TETTRIs website, an online form.

This online system has been formulated to facilitate proposals' submission via a simple, easy-to-use, and straight-forward mechanism. It can be completed in different subsequent steps and the applicants may save the different sections as they progress in the proposal definition (see Image 3 for the first page of the submission process).

### General information

1. **Title of the proposal + acronym:** The title should be concise and informative.
2. **Start of the project / End of the project.**  
Earliest starting date of January 1st 2024, latest ending of October 31st 2025. Minimum duration of 6 months, maximum duration of 22 months.
3. **Location of the project**  
Country. Description of the local node, biodiversity hot-spot, protected area or taxonomy knowledge centre on which the project is focused.  
*max 150 words*
4. **Summary**  
The summary should provide a brief overview of the proposed project, its objectives, methodology, and expected outcomes. *max 150 words*
5. **Major topic – please select:**  
A project may touch on many different topics, but, **from the seven topics listed below**, applicants must select **ONLY ONE** as the **MAJOR** focus for their project.
  - **Topic 1.** Species-level indexing of pollinator collections (Annex 1).
  - **Topic 2.** Improving access to local taxon lists and taxon-related scientific data through pragmatic name-mapping workflows (Annex 2).
  - **Topic 3.** The co-development of AI-based image recognition for European terrestrial molluscs (Annex 3)
  - **Topic 4.** The co-development of AI-based sound recognition of European grasshoppers (Annex 4).
  - **Topic 5.** Innovative molecular techniques for taxonomy: integrating genomic tools for the development of cost-efficient genetic markers for species identification and delimitation (Annex 5)
  - **Topic 6.** The development of training programs for taxonomic research (Annex 6)
  - **Topic 7.** Innovative cross-disciplinary projects focused on involvement of citizen scientists in monitoring biodiversity hotspots (Annex 7).
